Nordby Construction Breaks Ground on New Facility for Ag Credit in Stockton, CA *One of Nation's Largest Agricultural Lenders, Expanding in Central California*

Santa Rosa-April 21, 2008-Nordby Construction, a leading North Bay general contractor, has broken ground on a multi-million dollar administrative office project in Stockton, CA for American Ag Credit. This is Nordby Construction's third project for AG Credit, including their Santa Rosa facility on Airport Blvd.

When asked why Nordby Construction was their first choice, Floyd Ridenhour, General Manager of AG Credit responded by saying, "we have worked with many of the Nordby's staff and have found them all competent and responsive to what we need. They are all top notch and they stand behind their work." Designed by Belli Architectural Group out of Salinas, CA, the approximately 15,000 sq. ft. lending facility will be a 2-story, wood framed structure.

"We've built a solid relationship with the Ag Credit Organization over the years and we're proud and excited for the opportunity to be leading this project" said Tony Simmons, Project Manager for Nordby Construction.

The project is scheduled for completion in the end of 2008.

About Nordby Construction Company

Based in Santa Rosa, Ca, Nordby Construction is a full-service general contractor. Founded in 1978, the company builds innovative, quality projects within commercial, technical, hospitality, non-profit, winery, tenant improvements, and multi-unit residential private sectors throughout Northern and Southern California and adjoining Western states. The company is one of the largest general contractors in the North Bay, with 60 employees and more than \$70 million in annual revenues, and has recently opened a Southern California Office in Rancho Mirage, CA. For additional information on Nordby Construction, its projects, and services; visit the company's website at www.nordby.net.
